SINGAPORE

Graph:

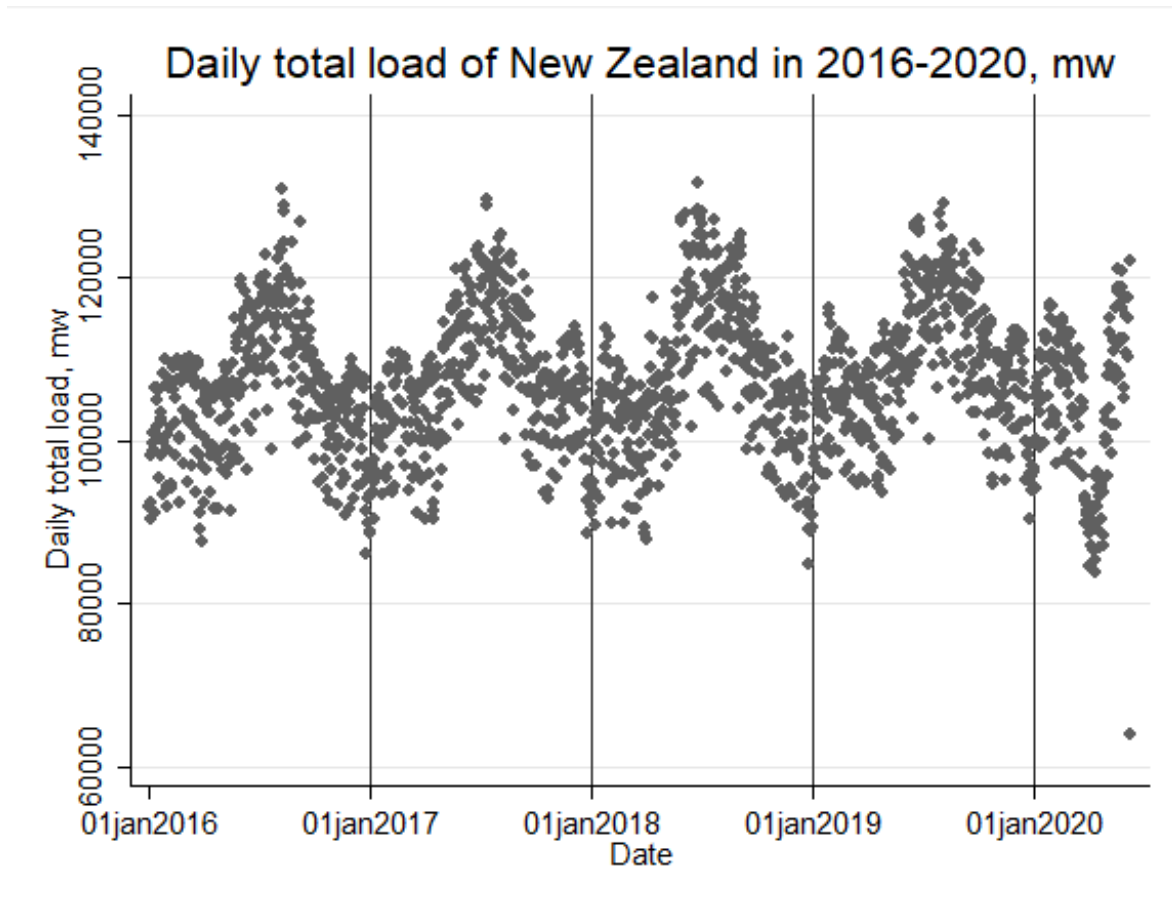

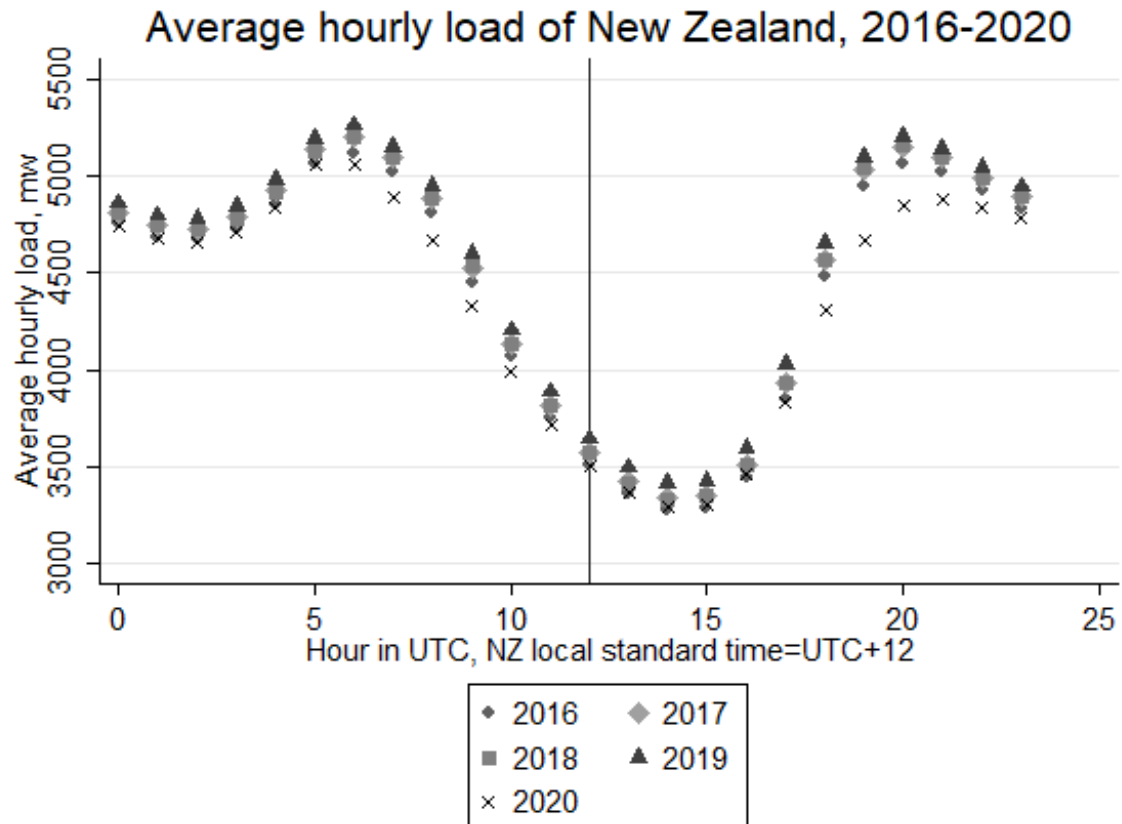

Note: Singapore local time = UTC+8, and local 12am is marked using the vertical line. Each point indicates the average hourly load at each one-hour period in each year, and the hour indicates the starting time of one-hour period. For instance, "2am" means the load in 02:00-03:00 period.

NEW ZEALAND

Graph:

Note: New Zealand local time = UTC+12 (standard/winter) or UTC+13 (Daylight Saving Time). Local 12am at standard time (UTC+12) is marked using the vertical line. Each point indicates the average hourly load at each one-hour period in each year, and the hour indicates the starting time of one-hour period. For instance, "2am" means the load in 02:00-03:00 period.
